

Brand new lighting technology has allowed us to introduce the Sea Vision SV 19 model. This utilizes a 50 watt HID xenon lamp and 50 watt ballast. It is the only underwater light with a built in igniter and ballast in the actual body of the casing. It is the brightest 12 or 24 volt DC light available. It can be installed on small to mid size boats including center console, sportfishers and cruisers. The vessel must be hauled out for installation although lamp change and any maintenance can be done in the water from within the hull.

Patent No. US 7,458,330 B2

SV19 technical specifications

Application for:	GRP/fiberglass/wood hulls	Angles available:	Flush
Lamp:	50 watt HID xenon	Weight:	1.9Kg/4.2lbs
Life length:	approx. 3,000 hours plus	Code:	SV19
Lumens:	5,300	Total shipping weight:	1.9 Kg / 5 lbs
Kelvin colour temp:	3900	Installation:	Recommended at least 10" (250mm) below the waterline between 3 - 6 feet (1 - 2 meters) apart. (80mm) 3.15" cut out hole
Glass lens:	Borosilicate glass	Optional lamp:	35 watt HID xenon with 5100 Kelvin color temperature 35 watt HID xenon with 10000 Kelvin color temperature
Thickness:	12.7mm / 0.5"	<i>All information is subject to change without prior notice, please confirm details prior to ordering.</i>	
Power supply:	12VDC - 4-4.6 amps running, max 8 amps startup 24VDC - 1.8-2.4 amps running, max 5 amps startup		
Casing material:	Marine Bronze / Marine Aluminum	USCG Ignition Protected	
Dimensions:	105 mm (4.13") x 189 mm (7.44")
